

~~CONFIDENTIAL~~

10 May 1952

MEMORANDUM FOR: Colonel L. K. White

SUBJECT : Use of Automobiles

1. There is attached a summarization of the replies from the Assistant Directors regarding our proposed plan to withdraw certain assigned vehicles and chauffeurs from the Assistant Directors for the assignment to the motor pool in order to improve service by the pool.

2. With the exception of ONE and OIC, all of the reactions were unfavorable. Each of the Assistant Directors felt that they needed an assigned vehicle and chauffeur for the efficient operation of their office and were extremely reluctant to release them. The reasons given were pretty much the same; that is, need for immediate transportation of the Assistant Director to the Administration Building, when necessary, and need for transportation of other personnel between the Agency's various buildings, as well as contact with other Government Agencies and commercial firms.

3. No office objected to the installation of radio transmitting and receiving equipment.
